CURLING RINKS PICKED, FRIDAY

A meeting of the Carbon Curling Club was held in the Municipal office last Wednesday night to make arrangements for the seasons program. A membership committee composed of J.J. Greenan and H. Jealous was appointed to canvas for members so that arrangements could be made accordingly.

H. Jealous, on behalf of the dance committee, reported that the sum of \$86 was realized from the last dance. It was also decided to hold another dance on Tuesday, Feb. 5, and a committee of three, V. Hawkins, S. Carney and F. Bessant was appointed to make all arrangements.

The annual bonspiel is to be held on January 29, 30 and 31, and the secretary was instructed to notify the following towns regarding this: Swallow, Drumheller, Rockyford, Acme, Grainger, Three Hills, Keoma and Trochu.

On Friday evening the following rinks were picked, the first man being skip, the second man to play third, the third will play second, and the last will be lead man.

G. F. MacGregor Skip—A. Davis, C. Knisley, J. Spencer

J. J. Greenan skip—S. Carney, Bill Reid, C.H. Nash.

L. Poxon skip—R. C. Barr, Alex Poxon and T. R. Howe.

H. Jealous skip—Jas. McLeod, Jas. Flaws, F. Zeigler.

Geo. Malton skip—G. Peters, E. J. Rouleau, E. S. Hesselgrave.

S. Reid skip—M. Skerry, J. Castiglione, Sam Garrett.

Dan Code skip—J. A. MacDonald, R. Wacker, B. Reeves.

Dr. Dunbar skip—A. F. McKibbin, P. Edwards, J. Moriarty.

S. F. Torrance skip—J. M. MacDonald, V. Hawkins, J. T. Gilbert.

T. Ramsay and Chas. Burnett skips; P. Poxon, H. Evans, A. Hovick.

F. J. Bessant skip—S. N. Wright, H. Luft, R. McMann.

R. J. Fairbairn skip—W. Dixon, J. Mansley, I. Gutman.

It was decided to have the usual President-Vice President competition this year, the losers to pay for the oyster supper, and the following draw was picked.

President	Vice-President
J. J. Greenan to play	Geo. Malton
Dan. Code	T. J. Ramsay
G. F. MacGregor	Dr. Dunbar
H. Jealous	S. Reid
R. J. Fairbairn	F. Bessant

A draw Committee was elected to complete the draws throughout the season, as follows: H. Jealous, Dr. Dunbar and A. F. McKibbin.

The Bonspiel committee is to be composed of L. Poxon, J. J. Greenan and R. J. Fairbairn.

The Treasurer's report showed that the Nelson note, together with interest, had been paid, although the Club finances were in very poor condition at the present time.

ELKS TO VOTE ON BUILDING SITE

Thursday evening, Jan. 3rd, will be the next meeting night of the Carbon Lodge, B.P.O.E., when the nomination of officers will take place. The Elks are also to vote on a site for a new community hall and every member is asked to be present to give their opinion on this important matter.

Mr. and Mrs. Clayton Hay and son spent Christmas with Mr. and Mrs. L. Hay.

SWALLOW TO HAVE BANK

The Royal Bank of Canada is opening up a branch at Swallow on January 3rd, under the management of Mr. Haymes. The branch will be open for business two days a week, Tuesday and Thursday.

CARBON SCHOOL REPORT FOR MONTH OF DECEMBER

GRADE XI—C. Wright 65, G. Ramsay 64, R. Appleyard 62, E. Braisher 60, M. Hodgson 47.

GRADE X—L. Wallace 69, M. Ramsay 62, N. McClure 61, M. Laing 56, R. Ramsay 56, C. Poxon 54, T. Johnson 50, D. Kincaid 50, I. Nash 50, A. Morrow 47.

GRADE IX—D. English 79, A. MacDonald 78, A. Graham 69, A. Evans 66, J. Fairbairn 66, P. Johnson 66, M. Pimm 63, M. Malton 58, R. Gordon 57, E. Wright 56, H. Edwards 47, V. Atkinson 44, J. Code 37.

The following students were absent from some tests: J. Braden, M. Fox, W. Poxon, K. Walker.

GRADE VIII—A. Charlebois 80, B. Fox 80, L. Bramley 78, G. Ives 74, R. Hiltsob 71, I. Mortimer 67, L. Trempanier 66, E. Trumbley 65, A. Mortimer 58, I. Laing 55, M. Wiertz 55.

GRADE VII—Billy Peters, P. Greenan, N. Nash, P. Dodge, S. Hiltsob, G. Mortimer, M. Oliphant, A. Wise, W. Poxon, S. Atkinson, W. McGregor, M. Wiertz, D. Amos.

GRADE VI—W. Skerry, F. Code, H. Trumbley, M. Livingston, W. Harvey, W. Batsch, B. Johnson, E. Bramley, V. Pimm, H. Hunt, M. Mortimer, H. Poxon, S. Poxon.

POXON-SMITH

A quiet wedding was solemnized at the home of Mr. and Mrs. R. Oakley, Calgary, on Monday, Dec. 17, when Mrs. M. Smith and Wilfred Poxon Sr. were united in marriage by the Rev. C. B. Oakley, of Carbon. Mr. and Mrs. F. J. Bessant were the witnesses.

A snowless Christmas was experienced in this part of Alberta this year, for the first time in a number of years. Christmas day was the warmest had in Alberta for 25 years, the temperature being around 44 degrees.

LITTLE ITEMS OF LOCAL INTEREST

The following was received at the local Post Office: "Pray Post master this baggage suit paid that men to whom going."

G. W. Malton was a Calgary visitor last Thursday and returned on Friday.

Miss Vera Poxon came out from Calgary on Friday and will spend the Christmas holidays with her mother here.

Miss Daphne Nash is also spending the Christmas holidays at her home here.

J. M. MacDonald left Saturday for Calgary, where he will spend the Christmas holidays.

The Misses Olive Charlebois and Mary Currie returned home Friday and will spend the festive season at their homes near Carbon.

Alfred Braisher, who is connected with the Bruce Robinson Company of Calgary, is spending a few days with his parents here.

School closed for the Christmas holidays on Friday and will re open on Wednesday, January 3.

Hugh MacDonald and Bill Edwards of the Mt. Royal High School, are home for the Christmas holidays.

Wilfred Poxon Jr. is down with the Scarlet Fever and is quarantined with the Heath children, who also have the fever.

Miss Payton is spending the Christmas holidays in Regina.

The Family Herald and weekly Star have just announced a special offer of a three year's subscription for \$2, splendid value at the former price, this radical reduction should now place the Family Herald on every library table in Canada.

GREETINGS---

FOR THE MANY EVIDENCES OF YOUR FAITH IN US AND OUR MERCHANDISE, AND FOR YOUR SPLENDID PATRONAGE DURING 1928, WE EXTEND OUR SINCERE THANKS. MAY 1929 BRING YOU ALL OF THE THREE GOODS---

GOOD HEALTH
GOOD LUCK
GOOD BUSINESS

A New Year's Resolution

This is the season when with Christmas thoughts of "Peace on earth, good-will toward men" still uppermost in our minds we turn our faces toward the New Year in the hope and expectation that it will prove a better happier, more prosperous year than the one that has gone before. New Year resolutions are made, some are kept, many are broken, because man is after all very human and weak.

But there is one guiding motive in the lives of all which surely we ought to adopt and determine to keep. It will cost us nothing to do so but a little self-restraint, and it will add immeasurably to our own happiness and peace of mind, and to the peace, progress and prosperity of every local community, every province, and the Dominion as a whole. Nay more, its universal acceptance and practice would constitute a permanent guarantee of the peace of the world.

It is the essence of the Christmas message, "Peace and Good-will toward Men;" it is the golden rule of life, doing unto others as we would that they should do unto us. It is a spirit of tolerance, of brotherhood, a recognition of the rights, even the prejudices of others, and acceptance of the fact that there are other viewpoints than those we ourselves hold and cherish.

In every community and in every country there are, unfortunately, men whose greatest ambition appears to be to nullify, stamp out, kill the spirit, the ideals, the principles which the Saviour of the world taught his disciples, and for which He laid down His life. Such individuals, having certain ends to serve, thrive for a time by stirring up strife, through the arousing of passions, prejudices, hatred, disrupting whole communities, and leaving behind them a trail of dis-union, suspicion and ill-feeling where formerly concord and co-operation prevailed. These agitators, seeking self-aggrandisement or other selfish ends, pass on, but individual lives have been embittered, happy homes wrecked, communities divided, and all the old pleasant relations and amity destroyed.

It is passing strange why so many otherwise sane and intelligent people give heed to the demagogic appeals of men of this type rather than to the real leaders of their country. Why is it that men and women can be stirred to frenzy against their fellow citizens merely because they speak another language, or whose skins are of a different color, or because of birth and upbringing, have been taught to worship God through different forms to those they themselves have inherited and accepted?

Rather than be swayed by these peace-wreckers and hatred-breeders, would not Canada, and the people of Canada, find greater happiness, more real contentment, and achieve greater prosperity and attain to higher things, if, instead, they followed the leadership of Canada's real leaders, past and present?

The confederation of Canada was not accomplished by men who sought to divide the people into rival and antagonistic groups, stirring up passions and fanning the flames of racial and religious prejudice. Such men are never constructive, but always destructive. They never did, and never can build up a country. No, Confederation is the achievement of men like Sir John A. Macdonald, George Brown, Sir George Cartier, who, forgetting and submerging personal views, united and worked together successfully to unite Canadians of all classes, races, and religions into one great united Confederation.

Hon. R. B. Bennett, upon whom the mantle of Sir John Macdonald has fallen, is not preaching race and creed bitterness, but is raising his voice on all occasions for unity and sympathetic consideration by all of the convictions and rights of others.

In the Saskatchewan Legislature recently the Minister of Public Health said: "I claim that any brand of Canadianism that does not accord equality to all its citizens, irrespective of race, creed, or place of birth is a fraud. If my country means anything to me, it means that its institutions are broad enough for every man to be protected in his faith, in his liberty, and as far as justice is concerned to have a voice in public affairs and to be able to express his opinions on public subjects."

As the carillon in the Peace Tower of the Parliament Buildings, at Ottawa, in common with bells around the world, rings out the old and rings in the new, cannot people of Canada rise far above the old suspicions and animosities of the past, and, scornfully rejecting the appeals of those who would keep their country in a turmoil, accept as eternally true the words addressed by Sir Wilfrid Laurier, shortly before his death, to a body of university students: "Trust is better than fear; faith is better than doubt; love is better than hate."

Heavy Cable Tolls

South American War Crisis Cost League Of Nations Large Sum

The South American war crisis has cost the League of Nations the biggest telegraph and cable bill in its career. The council despatched the entire official correspondence relating to the dispute between Paraguay and Bolivia to nearly sixty governments, each separate despatch consisting of five closely spaced typewritten sheets. The total cost amounted to over \$6,000.

Break Colds

Colds are quickly broken with Minard's. Rub it on chest and throat and also inhale.

W. T. U. 1705

Solve Arctic Mystery

Discovery Of Two Skeletons In Siberia Throws Light On Polar Expedition

Discovery of two whitened skeletons is believed to have solved the ten-year mystery surrounding the exact fate of two members of the 1916-1919 Polar Expedition of Roald Amundsen. The skeletons were found recently in northernmost Siberia.

The men involved were named Tessem and Knudsen. Both were members of the crew of Amundsen's Polar ship, the Maud. They left the expedition at the Cheluskien peninsula with letters, maps and scientific data, all of incalculable value, which Amundsen thought it desirable should reach civilization at once. Tessem and Knudsen were trying to make Port Dixon. They never arrived and nothing had been learned of them until the discovery of the skeletons.

Austria has marked the one-hundredth anniversary of the introduction of the accordion, devised in that country, to other parts of Europe.

Patten Estate

Chicago Wheat King Leaves Huge Amount To Charity

Nearly 50 per cent. of the estate of the late James A. Patten, "The Wheat King," who died recently, will eventually go to charity, the Chicago Title and Trust Company, named as executor and trustee, has revealed. The estate is estimated at \$15,000,000.

Upon the death of the widow, the estate is to be turned over by the trustee, one-fourth to the son, an equal share to the daughter, and the remaining one-half to be divided among seven charities.

TO THE MOTHERS OF ALL PALE GIRLS

If Your Daughter Shows Signs Of Anaemia a Tonic Is Needed

Anaemia is simply a lack of blood. It is one of the most common and at the same time most dangerous troubles from which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls often overwork and overstudy. It is dangerous because of the stealthiness of its approach and because of its tendency to grow steadily worse. Every growing girl should occasionally take a tonic to ward off this insidious trouble. It is because of their powerful action in rebuilding the blood that Dr. Williams' Pink Pills have made a world-wide reputation. The case of Miss Claire Sullivan, Pincher Creek, Alta., amply proves the value of this medicine. Miss Sullivan says: "During my school days I suffered a great deal from thin and watery blood. I was continually weak and tired, my appetite was poor, my sleep unrefreshing and I was troubled with backaches. To make matters worse I was attacked with acute appendicitis and the operation left me in a very weakened state. My mother, learning of the value of Dr. Williams' Pink Pills, had me take them and after using them for some time I can say the result was simply wonderful, as they completely restored my health, and now when opportunity occurs I always recommend these pills to weak, pale girls suffering as I did."

You can get the pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Judge—"Prisoner, you are sentenced to hard labour for life."

Criminal—"Excellent! May I sit down for five minutes before I begin?"

Check Colds with Minard's Liniment.

The sulphur of coal smoke will make red or blue flowers much paler, or even white.

Demand Exceeds Supply

Canada Does Not Make Enough Matches For Home Market

Canada, it would seem, ought to possess a thriving industry in the making of matches. This Dominion produces a large proportion of the material required. Yet in the past fiscal year Canada imported matches to the value of \$90,985, as compared with \$35,346 the year before. These came almost entirely from Sweden, though there were also purchases made in the United Kingdom and United States. Exports during the year showed a decline of from \$18,470 to \$8,491, these going in small quantities to a great many countries. Canada is at the same time exporting match splints for the industry in other countries. The value of these to leave the country in 1927, was \$466,248, and in 1928, \$385,685. The United Kingdom is the principal importer while the Irish Free State is also an importer.

Six years ago there were four plants manufacturing matches in Canada, but through amalgamations there were but three in 1926, though the capital investment in the period had increased from \$2,168,775 to \$4,509,305. A total of 781 persons found employment in the industry, being paid the sum of \$523,784. The cost of materials used in the industry was \$1,069,695, the selling value of the products was \$1,943,795 and the value added by manufacture accordingly \$874,160.

While many of the chemicals utilized have to be imported the items of heaviest cost in manufacture are lumber, splints, containers, boxes and cartons, the material for which are native products. In view of this one would expect to find a greater development in the industry. Almost the entire Canadian production is domestically consumed, export trade amounting to less than one per cent. of the output.

Cobalt Production

Cobalt produced in Canada is obtained chiefly by treating arsenical silver-cobalt-nickel residues from the Cobalt, South Lorrain, and Gowganda silver camps in northern Ontario, though a small part of the production is obtained directly from low-silver high-cobalt ores.

Foods and Seasons

The canned food industry of Canada has effected great changes in the relation of foods to seasons. Fruits and vegetables of many kinds, with all the flavour of the freshly gathered product, are to be had in or out of season all the year round.

To Enter Canadian Banking Field

Barclay's Bank Of England Make Application To Form a Bank Here

Barclays Bank, Limited, one of the largest banks in England with resources of approximately \$1,800,000,000, is about to enter the Canadian banking field.

According to an announcement appearing in a recent issue of the Official Gazette, at the next session of parliament an application will be made to form a bank under the Canadian Bank act to be known as "Barclays Bank (Canada)."

Barclays Bank, Limited, of London, is one of the "big five" with resources as shown in the balance sheet as at the 30th of June, of approximately \$1,800,000,000.

It is understood that Sir Robert Borden will accept the office of president of the new bank.

Worms, however generated, are found in the digestive tracts, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the hurtful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Navigation Closed Without Any Mishap

Everything Made Safe For Winter With No Loss Reported

The winding-up of navigation on the Great Lakes and St. Lawrence River was successful, according to reports received by the department of marine and fisheries. In the lower St. Lawrence all the equipment of the department, such as buoys and floating lights, were gathered into winter quarters without any losses whatever as far as could be ascertained.

All the ocean-going boats operating along the river and lakes reached the sea without encountering ice, and the lake and river boats were safely laid up for the winter.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

An umbrella with teeth that grip the owner's sleeve has been invented. But will it snap at anybody who tries to steal it in a restaurant?

Minard's Liniment for Asthma.

Canada's Dairy Products
The total value of all products of the dairy factories in Canada in 1926 was \$133,353,076.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 120 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let

WORLD HAPPENINGS
BRIEFLY TOLD

Fully 18,000 people visited in September the plant at Howden, England, where Airship R-100 is being constructed.

The Duke of Abercorn has been sworn in as governor of Northern Ireland for a second period of six years.

U.S. Ambassador Schurman has presented an American fund of \$500,000 for a new hall of instruction in the ancient University city of Heidelberg.

Commemorating the 25th anniversary of the Wright flight at Kittyhawk, the Paris chapter of the United States Aeronautical Association gave a luncheon.

Premier Mackenzie King celebrated his 54th birthday, December 17. Mr. King has been leader of the Liberal party since August, 1919, and prime minister since December, 1921.

Using wolfhounds to assist in capturing their prey, R. S. Cruickshank and W. E. Bayne, of Herschel, Sask., have killed approximately 100 coyotes this season. Eighty-seven of the skins were sold to one buyer.

Parliament will likely be asked at its next session to consider legislation for the return of railway and Peace River lands to British Columbia. Hon. Charles Stewart, minister of interior, states.

On Dec. 17, Theodore Roberts was buried in Hollywood cemetery, in the city where his motion picture characterizations made him an international figure. Scores of movie stars and actors attended the service.

Investigation of the problem of level railway crossings throughout Canada probably will be started very soon by Hon. Frank Oliver. Mr. Oliver was recently appointed advisory officer to the board of railway commissioners for this purpose.

Commodore Bartlett, Salvage Superintendent, has advised the White Star Line that the big liner Celtic which went on the rocks off Queens-town, Ireland, could not be salvaged. Bartlett advised the company that salvage would be impracticable and recommended that salvage expense was not justified.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Soy-Beans In Canada

Plant Was Introduced Into This Country In Early Year Of Eighteenth Century

The soy-bean is an ancient cultivated plant of China and Japan. It is said to have been introduced into North America during the early years of the eighteenth century. It was not, however, till about 1800 that it began to establish itself in the agriculture of this continent. In Canada the main areas of production are the central and south-western portions of Ontario. Small areas have been grown in every province in the Dominion and the increasing interest in this crop, in conjunction with the development of earlier maturing varieties, indicates that the future will see a considerable increase in the production of soy-beans in Canada.

"Sophia, what do you mean by wiping the plates on your handkerchief?"

"It doesn't matter, ma'am, as the handkerchief has to be washed in any case." Kasper, Stockholm.

W. N. U. 1735

Tentative Date For
Next Arms Conference

Nations Have Agreed On Eleventh Of Next March

Agreement on March 11, 1929, as the tentative date for the next session of the preparatory disarmament commission, and an accord between Great Britain and Italy as to procedure for carrying out the arrangements for settlement of the reparations problem and evacuation of the Rhineland, were outstanding developments in connection with a recent meeting of the Council of the League of Nations.

The British-Italian agreement was announced by Sir Austen Chamberlain, British foreign secretary. It was deemed important as those two powers were named as guarantors of peace on the Rhine under the Locarno pact. Their accord at this juncture was also believed to indicate an agreement concerning the powers of the commission of verification and conciliation which will be substituted for the allied troops when the latter are removed from the Rhine provinces.

Germany does not wish to see the commission function after 1935. That year was set by the treaty of Versailles as the last under which allied troops might remain in the Rhineland.

Alberta Homesteads

During the week ending November 16th, 176 homesteads and 3 soldier grants were taken out at the Edmonton land office, as compared with 26 homesteads and 1 soldier grant during the same week of 1927.

Simple—Youthful

It will be difficult to find a more becoming blouse, as simple and youthful as Style No. 299, with effective monogram embroidery, which contrasts smartly with tone of blouse. You can cut it out and make it in an hour. See small illustration showing two major parts. Tucks add trimming note, and give fitted line to shoulders. It can be made with or without the inset pockets. Wool jersey to be worn with velvet or tweed skirt is attractive for classroom. Lustrous satin crepe, flat silk crepe, cantonfaile crepe, georgette crepe, wool crepe, lame, sheer crepe with metalized threads, and velvet are fashionable fabrics. Paris is using this season for separate blouses, particularly popular with the youthful type of woman, both for utility and more formal occasions. Pattern for this charming blouse, made at a worthwhile saving, comes in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully. Emb. Trans. No. 11012 (blue) costs extra.

TOWN

HIS GOVERNMENT DEFEATED

The Coates government has been defeated in New Zealand 50-28 on a no-confidence motion. Sir Joseph Ward, Union party leader, has been called to form a new cabinet. Premier J. G. Coates, is shown above. The government has resigned.

Victory Seems Complete

Public Opinion Has Been Conquered By Motor Car

The victory of the motor car is complete. No longer is it possible to doubt that the car has conquered public opinion.

The motor car first owned the town. Now it owns the township as well.

There was a time when it was seriously proposed in Ontario no motor car should appear on the highways except at certain permitted hours, morning and evening. Thus horse-drawn traffic, unmolested, could hold the roads half the day. Now the horse is seldom seen on the highway.

Not so long ago the law required motorists, on meeting a funeral or overtaking one, to come to a standstill. But the motor car overcame that difficulty by taking over the funerals and speeding them up. The departed citizen rolls along on balloon tires to his sepulchre and his funeral impedes traffic little if at all.

The conclusive victory of the motor car came the other day when a village jury, in a coroner's inquest on a farmer who had been killed on the highway by an automobile, returned a verdict recommending that pedestrians walking on the roads at night should be required to carry lights. A few years ago there was strong opposition in the rural parts to the law requiring all vehicles to carry lights. What is the world coming to? old men asked. But the regulation has come to be regarded as a necessary one. When the coroner's jury recommended that all pedestrians should carry lights after dark we expected an uprising of the embattled farmers of the province against the suggestion. There has been scarcely a word of protest—instead, in several rural journals there have appeared items approving the suggestion as one that would work for the good of all.

The gasoline buggy has won out. The farmers drive it, the county councillors, the township councillors, the editors of the village weeklies, the members of the legislature and of parliament drive it. None of us are pedestrians any more, except now and then between rides. Toronto Star.

Demand For Pulpstones

There is a demand for good pulpstones and over half a million dollars worth are used annually in Canadian pulp mills. The 1926 Canadian pulpstone production is the highest on record, but only about 10 per cent. of the stones used in Canadian mills are produced in Canada.

"How often have I told you not to whistle?"

"Seven times, mother."—Lustige Kolner Zeitung, Cologne.

SUNDAY SCHOOL LESSON

DECEMBER 30

PAUL'S LAST MESSAGE

Golden Text: "I have fought the good fight, I have finished the course, I have kept the faith." 2 Timothy 4.7.

Lesson, 2 Timothy 4.1-18.

Devotional Reading: Psalm 98.

Explanations and Comments

Paul Exhorts Timothy To Preach the Word, verses 1-4.—"I charge thee in the sight of God, and of Christ Jesus, who shall judge the living and the dead, and by His appearing and His Kingdom": thus solemnly Paul begins his appeal to Timothy. "It has all the seriousness of a last farewell, and it is made even more solemn by the phrases with which it is introduced, as the apostle charges Timothy 'in the sight of God' and also 'of Christ Jesus,' of whose unseen presence both Paul and Timothy are conscious, to whom both must give account in the great day when he comes to 'judge the living and the dead.'"—C. R. Erdman.

And what was the charge? "To preach the word; be urgent in season, out of season; reprove, rebuke, exhort, with all longsuffering and teaching." "By being urgent in season, out of season, Paul does not mean that the messenger, in the urgency of his appeal, is to be inconsiderate and tactless, but he is not to consult merely his own convenience, not to preach at set times only, not to await occasions that are obviously opportune. At every possible season he must be eager to present the Word of life."—C. R. Erdman. "Not out of season to yourself, when it is an inconvenience to you,"—Charles Brown. "Take opportunity, or make it."

"Have you ever talked to the clerk at the next desk, to the assistant at the same counter, to the mate at the same bench. While you have been working together have you ever put in a good word for Jesus Christ? Make the place of your daily toil the scene of your Christian service."

For the time is coming, Paul told Timothy, when the people will not give heed to sound doctrine, but in their curiosity will seek teachers after their own desires, turning away from the truth unto fables. "This was the harvest reaped in the large communities over which the Church of Rome came to exercise dominion. When the Scriptures were neglected in the worship and preaching of the Church, the people read instead fabulous stories of the life and exploits of the saints. The number of these miraculous legends grew with the desire for them, till the great historic facts of Christianity were thrust into the background."—J. P. Lilley.

Recipes For This Week

(By Betty Barclay)

LEMON MINCEMEAT

- 4 lemons.
- 2 apples.
- 1 pound currants.
- 1/2 cup raisins.
- 1/2 cup chopped nuts.
- 1/2 cup melted butter.
- 2 cups sugar.
- 1 teaspoon salt.
- 1 teaspoon ground cinnamon.
- 1 teaspoon ground nutmeg.
- 1 teaspoon ground cloves.
- 1 teaspoon ground ginger.
- 1 teaspoon ground allspice.

Squeeze juice from lemons and cook peel until soft. Put through meat-chopper and then rub through a sieve. Add chopped apples and remaining ingredients, mix well and store in jars. Use as a filling for turnovers and pies.

JUNKET PLUM PUDDING

- 1 package chocolate junket.
- 1 pint milk.
- 1-3 cup raisins.
- 1-3 cup dates.
- 1-3 cup figs.
- 1 cup water.
- 1/2 cup sugar.
- 1 tablespoon lemon juice.
- 1/2 teaspoon cinnamon.
- 1/2 teaspoon clove.

Cut raisins, dates and figs in small pieces; add sugar and cook slowly until tender. Add sugar and boil until thick. Add lemon juice. Cool slightly; place in bottoms of individual dessert glasses. Warm the milk until lukewarm—not hot—and dissolve in it the chocolate junket. Add spices; pour over fruit, and let stand in a warm place until firm. Chill before serving. Top with whipped cream and maraschino cherry.

Her—You deceived me when I married you.

Him—I did more than that. I deceived myself.

Legislation
Respecting Liens

Removing Financial Obstructions To Operation Of Farm Lands In Certain Areas

Hon. Charles Stewart, Minister of the Interior, is gratified with the results of the legislation respecting liens on certain classes of western lands which he obtained from Parliament in the session of 1927.

By the work of committees set up by this Act (The Crown Debts Act) liens and other financial obstructions to operation placed on lands in certain areas during the dry years following 1914 to attempt to insure repayment of advances for seed grain and fodder, are being adjusted. It is expected from what Hon. Mr. Stewart learned from his study of the working out of the plan while in the West, that a number of farmers who might have been forced from the land will be encouraged to remain as a result of these adjustments, which are being made at no cost to the settler for the legal process, and that areas which have been tied up and non-productive can now be disposed of to those who will put them to the use for which they are fitted.

As explained in Parliament, where the bill was fully discussed, there was a rapid advance of settlement, especially from 1912 to 1915, into areas in southeastern Alberta and southwestern Saskatchewan, formerly devoted to ranching. The extremely dry years following 1914 experienced by this district seriously crippled these new settlers and in order to assist them, especially in view of the need for increased food production caused by the war, grants of seed grain, fodder, and other forms of relief were made during the winter of 1914-15, and the following spring. The area, however, has proved too dry for grain farming, although suited to grazing, and while considerable portions of these loans were repaid the result as a whole was that grain farmers moved to other districts and much of the land was tied up by the liens for advances by the federal and provincial governments and by loan companies. Some settlers, who had remained, desired to secure additional lands and to get a sufficient acreage for grazing, and others were anxious to come in to undertake the pasturing of cattle. Both were prevented by the existence of these liens.

Time Has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Mica In Canada

Mica is produced in Canada mainly from mines in the Ottawa region, both in Ontario and Quebec. The Quebec deposits lie between the Lievre and Gatineau rivers, and the Ontario deposits, in the Perth-Kingston district. The mine near Sydenham, Ontario, is probably the largest mica mine in the world.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

Large Bill For Ice Cream

America's bill for ice cream sodas and other fountain drinks is \$4,109,561 a day, it was disclosed at the annual convention of soda fountain manufacturers held in Chicago.

"But it is very dear."

"No, madam, and it suits you divinely."

"Send it along, and I will see how it suits my husband."—Euen Humor, Madrid.

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

CANADIAN PACIFIC

A STEADY GROWTH

For more than twenty-two years this farmers' company has been growing, as it will continue to grow, in strength and capacity of service.

That is one convincing proof of the value and usefulness that Western farmers find in United Grain Growers

DELIVER YOUR GRAIN TO

UNITED GRAIN GROWERS LTD

ELEVATOR AT SWALWELL

WHY NOT ABOLISH WORRY?

No matter what your circumstances are today, the turn of fortune's wheel may find you destitute when old—unless your future income is guaranteed. There is no better way to guarantee it than by the obtaining of a Canadian Government Annuity. By this means, every citizen of Canada may have an old age of leisure and comfort.

If, while you have health and strength, you will put a small portion of your present savings or future earnings in to a Canadian Government Annuity, you can face the future with assurance and thus your later years will be free from the humiliation and privation that come with poverty and old age.

You can provide for an annual income of any amount between \$10 and \$5,000, payable for life. Such a plan has outstanding advantages. Your income is secured in this way. Is not transferable—Cannot be forfeited—Cannot be stolen—Cannot be seized or levied upon by the process of any court—Is not affected by business or trade depression.

LIVE STOCK BREEDERS TO HOLD ANNUAL MEETING

The annual meetings of the Alberta Provincial Horse, Cattle, Sheep and Swine Breeders' Associations will be held in Edmonton on January 9th and 10th, the swine breeders having their session on Wednesday, January 9th, in the morning, with the sheep breeders in the afternoon, the horse and cattle breeders taking Thursday morning and afternoon respectively, with a banquet for all four associations on the evening of January 10th.

CALGARY TO HAVE STRUCTURAL STEEL PLANT

Closely following the announcement that the Manitoba Rolling Mills Limited of Winnipeg plan the erection of a large plant in Calgary, comes the statement that the Dominion Bridge Company has decided on the building of a plant in the same city. The program of the bridge company includes the purchase of the Riverside Iron Works and the erection of a plant which will cost in the neighborhood of \$300,000 and will employ 150 additional men. It is announced that no time will be lost in commencing the construction of the buildings re-

quired by the company on the 25-acre site which has been purchased for the purpose.

EXTEND SCOPE OF CO-OPERATIVE INSTITUTE

As a result of the success attending the Alberta Institute of Co-operation held during the past season, it has been decided to hold three similar events at different points in the province in 1929. These will be financed from Alberta's share of surplus Wheat Board funds which are being administered by a committee of trustees under the chairmanship of Hon. George Hoadley. The three institutes which will be held during the last week in June will follow the same lines as the one held last year. Outstanding authorities on various phases of co-operation in the United States and Canada will be secured as speakers and provision will be made for full discussion of the problems in co-operation affecting Alberta producers.

TO PUBLISH NEW WEED BULLETIN

A new booklet dealing with the noxious weed situation in Alberta entitled "Alberta's Weed Problem, No. 3," is in course of preparation by Field Crops Commissioner W. J. Stephen, and will be ready for distribution through the Department of Agriculture early in the new year. Copies of this publication may be secured by farmers, municipal officials and other persons interested in the control and eradication of noxious weeds by communicating with Mr. Stephen's office.

Goblers

Turkeys are harder to rear than children sometimes, but they mature earlier, and once they reach maturity there is less chance of them going wrong. W. Freeman with his tremendous flock demonstrates that other than wheat can be raised in Alberta. He gets his greatest returns at a time when Santa Claus is making his heaviest outlays. The farm is at Strathmore, where is also the Canadian Pacific Experimental Farm.

In the Chevrolet six-cylinder line just announced is seen one of the most important developments in recent motor history—the production of a powerful and attractive six in the low price range hitherto occupied exclusively by fours. Among the seven new models offered are the coach and sport cabriolet, seen above together with the fully enclosed valve-in-head motor.

This motor develops 46 horsepower—32 per cent more than its four-cylinder predecessor. The factory states that "speed has been stepped up to satisfy maximum requirements."

Notable features are gasoline pump instead of vacuum tank

feed, adjustable driver's seat, water temperature gauge on dash, and special accelerating pump which operates when the accelerator is depressed.

The announcement of the new

car reveals that Chevrolet engineers began four years ago the research work, planning and proving ground testing which culminated in the new car. More than 100 different motors are said to have been built and tested.

THINNESS

Over-thinness is detrimental to a child's progress in growth and health.

Scott's Emulsion

of vitamin-rich cod-liver oil is a body-building food and tonic that overcomes thinness and helps build up a sturdy body.

CHAPTER X.—Continued.

"One of the office men by name of Renwick. He's one of them narrow-between-the-eyes, psalm-singin' old has-beens that sez 'tut tut' every time he hears a logger say 'damn.' His health is poor, so they're goin' to send him up here to take charge of this mill. Thanks be, I'm goin' to have charge in the woods, so I won't have nothin' to do with him."

They discussed the matter during the day, and that evening they again visited the falls. From the trapper Donald learned that the supply of water was unfailing. Owing to the natural formation, the cost of building the dam would be small. Donald's friends became as enthusiastic as himself.

"We'll be finished to-morrow night, Douglas," announced Gillis that evening. "If you and Donald want to, you can go to town and put this proposition up to your father."

The lines of steel were creeping north slowly but surely. As they left the cabin to start for the Coast, the first faint boom of a blast was brought to their ears by the southern breeze. Ten miles south of the lake they came to steel and rode to Squamish in the cab of a locomotive, reaching Vancouver that night.

Douglas informed Donald over the 'phone the next morning that his father would give him a hearing at two o'clock that afternoon.

As Donald thought of the impending meeting he experienced certain inward qualms. He felt that Renwick would oppose him, and wondered if Robert Rennie would consider him conceited and forward in suggesting such a radical innovation.

At the appointed hour Donald and Douglas entered the office of the R. C. & L. Co. Robert Rennie greeted Donald with a friendly smile and motioned to chairs near the desk. "You have some papers with you, I presume," he said.

Donald placed the rough plans on the desk before him. For five minutes Robert Rennie studied them quietly while Donald fidgeted. Without comment, he leaned back in his chair for a moment, apparently in deep thought. Presently he pressed a button at the side of his desk.

"Send Renwick, Bolton and King here," he said to the boy who answered the bell.

As the men entered the room Donald had no difficulty in recognizing Renwick from Gillis's description. Robert Rennie rose to introduce Don-

ald, then spoke in quick, flashing sentences that went straight to the heart of things, as he spread the plans on the table before them.

As Donald had anticipated, Renwick, after a short scrutiny of the papers, objected strenuously, his chief objection being the initial cost, together with the fact that experience had demonstrated that only small mills had proved a success when electrically driven. Bolton was of the same opinion, but he admitted that if the supply of timber were sufficient to keep the mill in operation for years, the initial cost would be offset by the economy of operation.

King, the company's chief engineer, vouchsafed no opinion, but sat with Donald's plans before him, copying the figures in his note-book.

Robert Rennie glanced at Donald expectantly.

Donald spoke of the lessened cost of operation in an electrically-driven mill by the reduction of the number of millwrights, oilers and helpers, the lower insurance rates, the saving on line-shafting, belts and oil, of the advantage in speed over a steam mill, etc. As he warmed to the subject he came to his feet and leaned over the desk.

"As you gentlemen know, the greatest enemy of the mill-owner is fire. With a steam-mill of the size you are to build, with donkey engines and locomotives operated by steam, you will have a battery of smokestacks that will be an hourly menace during the summer months in the dry air at that altitude. Electrify your mill and donkey engines and you will reduce the fire hazard by seventy per cent. I don't ask you to accept my opinion. I advise you to investigate thoroughly before deciding. An electric mill with the enormous power available would be a credit, not only to this company, but to the Province as well."

Robert Rennie's brain functioned with a clear-cut precision. He would listen to the advice of his experts with an attentive ear, and his decision was usually made before the last one had ceased talking.

While Donald was talking Robert Rennie sat forward in his chair with a look of almost strained attention. As Donald finished he swung quickly to his chief engineer. "King, tomorrow you go to Summit Lake. Furnish a full report. If your figures correspond with McLean's we will install an electric plant. Bolton, get quotations at once on electrical equipment. That's all," he finished tersely.

He turned to the two young men as the door closed. "Beginning with the first of next month, McLean, if you so wish, you will act as assistant manager at the Summit Lake Mill. And you," he turned to Douglas, "will occupy a similar position at the Cheakamus plant." He rang for his stenographer, who entered at once.

Donald muttered an embarrassed thanks, and as he passed through the door he heard Robert Rennie's voice in rapid dictation.

They spent the remainder of the afternoon buying supplies from the list which Andy had furnished them. There were numerous delicacies in the items of foodstuffs that brought exclamations of surprise from Douglas. "There is everything here to serve a banquet; even tablecloths and napkins. What is the little beggar up to now, I wonder?" he said laughingly.

"His birthday," explained Donald. "He is going to invite the Wainwrights and John Hillier. And besides," he added, "I think he wants to show the old trapper that he can do a little fancy cooking himself."

Janet Rennie could not interpret the inner urge that prompted her to arise at an early hour the next morning to drive her brother to the wharf. It rather bewildered her—made her ashamed of herself that she could not put Donald from her mind entirely. "Why can't you forget him?" she asked herself in protest for the thousandth time. As the boat pulled away from the dock she waved an adieu and, with a troubled look in her eyes, swung her car cityward.

For two days after their return to the mountains, their little cabin was a hive of industry. Andy banished his fellow-lodgers to the outdoors at every opportunity while he performed mysterious rites over the small stove. "I'll show that juggling old pirate what a real meal is like," he chuckled to himself.

Their guest arrived late in the

afternoon and sat outside in the warm sun while Andy busied himself behind he closed door.

Old John's face shone from vigorous application of soap and towel. His sole change in attire for the occasion was a clean buckskin coat from the breast pocket of which protruded the corner of a red silk handkerchief.

Connie's abundant golden hair had been carefully brushed, and hung over her shoulders in glistening, billowy waves that reached to her waist-line. She seated herself a short distance from the party and took no part in the conversation. This was her first social affair and she felt ill at ease. Donald's repeated attempts to break her reserve were answered in monosyllables.

The door opened to disclose a remarkable figure framed in the entrance. Andy stood before them in the most ridiculous make-up of a butler. An old black coat of Gillis's, cut off at the sides to form a "claw-hammer," hung loosely over his narrow shoulders; side-whiskers of tree moss were stuck to his cheeks, and his face was as stolid as a graven image.

"Dinner is now being served in the main dining-hall, me lord," he intoned slowly.

They applauded Andy's effort heartily, and as they laughingly entered the cabin a scene met their eyes that was remarkably incongruous amid such drab surroundings.

A snow-white cloth covered the rough board table. A huge turkey, with bulging breast browned to a crispness, graced the centre of the board. Oysters in the shell, celery, salads, several kinds of vegetables, pies, cookies and fancy cheeses were in tempting abundance; and in a place of honor near the turkey reposed Andy's birthday cake, its frosted surface covered with tiny candles.

Connie's blue eyes opened wide with wonder. "Oh, Dad!" she cried joyously, "it's just like stories, isn't it?"

John tossed his hat to the floor in the corner. "You can deliver the goods of timer, sure enough," he commended in a tone of respect.

It was an odd party that gathered in the log hut in the wilderness to celebrate Andy's birthday—a wilderness whose silence was soon to be broken by the crash of trees and the clang of steel. A late blast, so near that the cabin trembled, caused the old trapper to shiver slightly.

"Trains will soon be running through your backyard, John," observed Douglas.

The old man shook his head sadly. "Yes," he concurred, "an' I'll hev' to be hittin' the trail agin before long."

Andy's banquet proceeded merrily, and when the last course was finished Donald took a bundle from the shelf and placed it in Connie's hands. "Something I brought from town for you," he smiled.

Connie's colour heightened. "For me?" she asked incredulously.

"Yes, some reading matter."

"Thank you," she murmured softly, as her quick fingers unwrapped the package. She cried aloud with delight as half a dozen novels and as many magazines were disclosed to view.

"And here, Andy, is a present for you," said Donald as he dragged a box from the corner; "something to assist in passing away the time pleasantly."

Andy's joy knew no bounds when, opening the box, a superb Victrola was disclosed to view.

Suddenly the sweet strains of a full orchestra playing the "Bacchante" filled the room. Connie was enraptured. She stood with bowed head and closed eyes, her hands pressed to her throbbing breast, as the music stirred her emotional soul to its depths. She sighed deeply and her cheeks were wet with tears as she moved to the machine when the music ceased.

They all sang the chorus to the "Old Oaken Bucket," "Suane River" and "Annie Laurie." Connie's embarrassment had vanished and her clear voice rang in sweet harmony with the deeper tones of the men.

At the conclusion of "Home Sweet Home," old John Hillier blew his nose vigorously and surreptitiously dabbed the big red handkerchief to his eyes.

Minard's Liniment for Grippe.

Will Not Leave Cities

Specialists in Russia Prefer Unemployment To Working In Small Towns

Ten thousand technical specialists are listed among unemployed by the Soviet Labor Bourse at the same time that the country is struggling with the problem of insufficient technical personnel.

This apparent contradiction is explained by the circumstances that the unemployed specialists are in Moscow, Leningrad, Kharkov and other large cities, while the unfilled jobs are in the coal fields of the Donetz Basin, in the oil fields of the Caucasus and other even more unattractive provincial places.

The Labor Bourse in Leningrad alone lists 1,800 unemployed specialists; Moscow has at least as many and other cities show corresponding figures. The majority of these unemployed are young graduates of the technical schools, who apparently prefer privation in the city to a job and a regular salary in the province.

Three-quarters of the new graduates, a Soviet newspaper points out, refuse to accept positions away from the cultural advantages of the urban centres. Higher wages and other inducements do little to overcome their distaste for life in the country.

In addition to these registered unemployed, there are doubtless hundreds more who have not placed their names on the list of the jobless, having accepted positions as office workers or store clerks rather than leave the urban life.

It is generally known that a similar situation exists in relation to physicians. While villages and provincial towns beg and clamor for doctors, thousands of them—especially young ones—are looking for work in Moscow, Leningrad, etc.

Next Imperial Conference

No Arrangements Have Yet Been Made For Any Meeting In 1929

In reference to a statement that the Australian government has urged that an imperial conference be held in 1929, Reuter's Agency learned there has never been any fixed date for the conference. So far no arrangements have been made for any meeting next autumn, and in view of the British general elections being held next summer it is improbable an imperial conference will be held. The last imperial conference was held in 1926.

"She hath done what she could,"—Mark xiv. 8.

And rank for her meant duty, various, Yet equal in its worth, done worthily; Command was service, humblest service done By willing and discerning souls was glory.

—George Eliot.

This Bethany loyalty is the simple requirement of religion. Not one cent, not one moment, not one loving impulse, not one thought, not one syllable of a creed, more than comes within the range of your possibilities, is expected; but all of this is expected, nothing less will do. God asks for no more, but all this He does expect, and man has no right to evade it. Let duty be its own reward, love its own justification. "She hath done what she could,"—this is the fulness of the Christian excellence; it is the ultimate standard of religion.

—Jenkin Lloyd Jones.

CONSTIPATED CHILDREN

Constipation is one of the most common ailments of childhood and the child suffering from it positively cannot thrive. To keep the little one well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are pleasant to take and can be given to the newborn babe with perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Mother—You mustn't eat ice cream like that. I knew a boy who ate his ice cream so fast that he died before he had eaten half.

Little Willie—What happened to the other half?

Dragged Down By Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Fish seem to need more food in warm weather than in cold, experiments indicate.

**Nervous and Run Down
The Least Noise
Would Bother Her**

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so."

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."
